**Experience
Team Pro**

- Ultralite Scandium frameset • 27 speed Shimano with SLX rear mech • Marzocchi 33rlo forks, 100mm travel with Lock-Out • Tektro Auriga PRO hydraulic disc brakes • Double wall disc specific rims with Continental Mountain King tyres • WTB Pure V Race saddle

**Experience
Team**

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu • 27 speed Shimano with SLX rear mech • Marzocchi 22rlo forks, 100mm travel with Lock-Out • Tektro Auriga PRO hydraulic disc brakes • Double wall disc specific rims with Continental Mountain King tyres • WTB Pure V Race saddle

**Experience
Hydro**

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu • 24 Spd Shimano Drivetrain With Alivio • Suntour 100mm travel forks with lock-out • Auriga Comp hydraulic disc brakes • Double wall disc specific wheelset

FSX

- 7005 series Alu 4 bar linkage suspension frame • 21 speed Shimano drivetrain with Altus • Suntour suspension forks with Lock-Out • Mechanical disc brakes all round • Double wall disc specific wheelset

**Experience
Pro**

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu • 21 speed Shimano drivetrain with Acera • Suntour suspension forks with Lock-Out • Mechanical disc brakes all round • Disc specific wheelset

**Experience
Comp**

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu • 21 speed Shimano drivetrain with STEF50 STI shifters • Suntour suspension forks with Lock-Out • V brakes • Suntour XCC chainset

Experience Trail

• 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu • 21 speed Shimano drivetrain with Shimano shifters • Suntour suspension forks • Tektro V brakes • Suntour XCC chainset

Schiara

• 7005 series Ladies Specific geometry Alu frame giving shorter reach, lower step over and lower centre of gravity • 24 speed Shimano drivetrain with Altus • Suntour XCT V2 suspension forks • Tektro front disc brake • Double density grips

Lyra

• 7005 Ladies series Alu frame giving greater strength to weight ratio than 6061 Alu • 21 speed Shimano drivetrain with STEF50 STI shifters • Suntour suspension forks • Tektro V brakes • Multi function treaded tyres • Land Rover Ladies specific Gel saddle • Adjustable stem

Matarari

• 7005 Ladies series Alu frame giving greater strength to weight ratio than 6061 Alu • 21 speed Shimano drivetrain with Shimano shifters • Suntour suspension forks • Tektro V brakes • Multi function treaded tyres • Land Rover Ladies specific saddle

Criador

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu
- 18 speed Shimano drivetrain
- Suntour chainset
- Suntour suspension forks for comfort and the fight against fatigue
- Features lightweight alloy components such as rims and 'V' brakes

Casella

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu
- 18 speed Shimano drivetrain
- Suntour chainset
- Suntour suspension forks for comfort and the fight against fatigue
- Features lightweight alloy components such as rims and 'V' brakes

Cordonza

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu
- 6 speed Shimano drivetrain
- Suntour suspension forks for comfort and the fight against fatigue
- Features lightweight alloy components such as rims and 'V' brakes

Cavello

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu
- 6 speed Shimano drivetrain
- Suntour suspension forks for comfort and the fight against fatigue
- Features lightweight alloy components such as rims and 'V' brakes

Bravo

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu
- Single speed
- Junior V style brakes
- Junior ATB riser bars for better riding comfort
- Features lightweight alloy components such as rims

Mimi

- 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu
- Single speed
- Junior V style brakes
- Junior ATB riser bars for better riding comfort
- Features lightweight alloy components such as rims

Commuter
6.9

• 7005 series Alu bi-axial tubed frame giving greater strength to weight ratio than 6061 Alu • 27 speed Shimano drivetrain • Lightweight carbon fibre forks • Tektro Auriga Pro Hydraulic disc brakes • Continental Contact tyres

Commuter
5.9

• 7005 series Alu bi-axial tubed frame giving greater strength to weight ratio than 6061 Alu • 27 speed Shimano drivetrain • Lightweight carbon fibre forks • Continental Contact tyres

Commuter
4.9

• 7005 series Alu bi-axial tubed frame giving greater strength to weight ratio than 6061 Alu • 24 Spd Shimano drivetrain with Alivio • Lightweight carbon fibre forks • Continental Contact tyres • Aero section double wall rims

Commuter
3.9

• 7005 series Alu bi-axial tubed frame giving greater strength to weight ratio than 6061 Alu • 24 Spd Shimano drivetrain with Alivio • Lightweight Alloy forks • Aero section double wall rims • Suntour XCT V2 chainset

Commuter
2.9

• 7005 series Alu bi-axial tubed frame giving greater strength to weight ratio than 6061 Alu • Shimano 21 Spd drivetrain with Altus • Suntour suspension forks with Lock-Out • Alloy adjustable stem • Tektro alloy V brakes

Commuter
1.9

• 7005 series Alu bi-axial tubed frame giving greater strength to weight ratio than 6061 Alu • 21 speed Shimano drivetrain with STEF50 STI shifters • Suntour XCC chainset • Alloy adjustable stem • Tektro alloy V brakes

Commuter
8

• 7005 series Alu bi-axial tubed frame giving greater strength to weight ratio than 6061 Alu • 8 Speed Shimano Acera Drivetrain • Tektro alloy V brakes • Reflective side wall tyres

Aero

• 7005 series Alu frame giving greater strength to weight ratio than 6061 Alu • 24 speed Shimano Road drivetrain with STI shifters • Lightweight Alloy Aero road fork • Continental Contact tyres • Road section double wall rims

Premier Gents

- 7005 Ultralite double butted tube set giving strong, lightweight performance
- Nexus 8 speed Shimano drivetrain for the ultimate in smooth reliable shifting
- Suntour suspension forks for added comfort and the fight against fatigue
- Safety conscious Reflective Continental 700c tyres
- Totally equipped with factory fit dynamo lighting, pump, alloy dog leg rack and full mudguards
- Propstand

Premier Ladies

- 7005 Ultralite double butted tube set giving strong, lightweight performance
- Nexus 8 speed Shimano drivetrain for the ultimate in smooth reliable shifting
- Suntour suspension forks for added comfort and the fight against fatigue
- Safety conscious Reflective Continental 700c tyres
- Totally equipped with factory fit dynamo lighting, pump, alloy dog leg rack and full mudguards
- Propstand

Blenheim

- 7005 series Alu bi-axial tubed frame giving greater strength to weight ratio than 6061 Alu
- 24 speed Shimano drivetrain
- Rigid 700c forks for overall weight saving
- Land Rover Gel and Elastomer based comfort saddle
- Fully equipped with alloy rack and mudguard set
- Adjustable stem

Burghley

- 7005 series Alu bi-axial tubed frame giving greater strength to weight ratio than 6061 Alu
- 24 speed Shimano drivetrain
- Rigid 700c forks for overall weight saving
- Land Rover Gel and Elastomer based comfort saddle
- Fully equipped with alloy rack and mudguard set
- Adjustable stem

Aspen

- 7005 series Alu Low Step through frame
- 7 speed Shimano drivetrain
- Rigid 700c forks for overall weight saving
- Land Rover Gel and Elastomer based comfort saddle
- Fully equipped with pannier carrier, chain guard and mudguard set

Windsor

- 7005 Trekking series Alu frame giving greater strength to weight ratio than 6061 Alu
- 21 speed Shimano drivetrain with STEF50 STI shifters
- Rigid 700c forks for overall weight saving
- Land Rover Gel comfort saddle
- Fully equipped with pannier carrier and mudguard set
- Adjustable stem

Ascot

- 7005 Trekking series Ladies Alu frame giving greater strength to weight ratio than 6061 Alu
- 21 speed Shimano drivetrain with STEF50 STI shifters
- Rigid 700c forks for overall weight saving
- Land Rover Ladies Gel comfort saddle
- Fully equipped with pannier carrier and mudguard set
- Adjustable stem

City Lite

- 7005 series Alu frame with Dahon licence folding technology
- 6 speed Shimano drivetrain
- Lightweight alloy components including 'V' brakes, rims, handlebars
- Fully equipped with kickstand and carry bag
- Folding handlebars and pedals help complete a compact and lightweight package

City Elite

- 7005 series Alu frame with Dahon licence folding technology
- Suspension forks for comfort and the fight against fatigue
- 18 speed Shimano drivetrain
- Lightweight alloy components including 'V' brakes, rims, handlebars
- Fully equipped with kickstand and carry bag
- Folding pedals help complete a compact and lightweight package
